## WILL SEND A DELEGATION TO EDMONTON

To Get Particulars Regarding  
Gas Franchise—Gas Company  
Apply to Commission to Have  
Raise in Rates Ratified—By  
Law Setting Mill Rate Passed  
Third Reading.

At the regular meeting of the Town Council held Monday evening a letter was read from the Utilities Commission stating that arrangements had been made for the hearing of the case in connection with the recent sale of the Canadian Western Power & Fuel Co., in raising the gas rates to consumers in town. The letter stated that the company had made application to have the proposed rate ratified by the commission, and that the hearing would take place in Calgary on Tuesday, April 19th, provided the date and place of meeting was agreed to by the council.

The mayor and full council were present and after discussing the matter it was moved by Councillor Oakland, seconded by Councillor Kitch, that the solicitor present against holding this meeting in Calgary and request that same be held in Redcliff at a date convenient to the commission. This motion carried unanimously.

Solicitor Baird reported some progress in the investigation into the value of the franchises held by the gas company, as instructed at the last meeting of the council. As the matter of getting details and information from Edmonton was very slow and unsatisfactory, it was decided to send a delegation to Edmonton for this purpose. It was therefore moved by Councillor Oakland, seconded by Councillor Kitch, that the solicitor be appointed a committee to attend to this matter. They left on yesterday's train for Edmonton.

A bylaw, authorizing the mayor and secretary-treasurer to borrow \$17,000 from the Royal Bank for current expenses until taxes were paid, was introduced, given its several readings and passed.

The bylaw, setting the mill rate at 40 mills, and providing for the assessment of improved property up to 75 per cent of actual value, as approved by the representative of the Municipal Finance Commission, was given its third reading and passed. This bylaw was given its first two readings at the last meeting of council. There was a division in the vote which resulted as follows:

Yes—Councillors Kitch, Stone and Worth.  
No—Councillors Broughton, Leeson and Oakland.

As the vote was a tie the mayor voted, and the motion that the bylaw be given its third reading was carried.

A letter was read from the Workmen's Compensation Board, drawing attention to a clause in the Act which requires that all corporations employing men must have a certificate from among the employees whose duty it is to devise ways and means for the prevention of accidents. Messrs. R. Everett and J. Kitchner were appointed to act on this committee.

A letter from the Good Roads Association, asking the council to support the town in carrying out this year's program was referred to the chairman of the Public Works committee.

The Auditor's report for the year was presented and adopted.

The secretary reported that there were still some in town who had not paid the special school tax and instructions were given that he take the necessary steps as provided by law to collect same.

The usual monthly accounts as passed by the Finance committee were approved for payment.

Control of the Pacific, naval co-operation and the relations of Great Britain and the Dominion of France affairs, will be considered by the Imperial conference in London in June, according to an announcement by Premier Hughes, of Australia.

The advance notices and application forms for the "University Week for Farm Young People" are now ready and will be forwarded on application to the Department of Extension, University of Alberta.

## Will Organize a Rifle Asso. Here

There is the local military unit are now making arrangements for the forming of a rifle association here. They have the assurance of headquarters that as soon as the required number is secured arrangements will be made to install the outfit and supply the necessary equipment for carrying on same.

All civilians who are unable to join the military unit, may become members of the Rifle Association and enjoy all the privileges of same, such as being supplied with rifles and 200 rounds of ammunition free.

Local officers have been offered suitable land covering a tract for a range up to 1,000 yards, and prospects look promising for an interesting season providing the association gets the support which it should. Any wishing to join and take advantage of this fascinating outdoor sport should join their names with the officer commanding the local unit.

As there are quite a number of first class shots in town and surrounding country, Redcliff should make a good showing at Medicine Hat and Calgary this coming season. Should our local rifle association produce any crack shots, local medals will be up for the way for them to compete at Ottawa and the possibility of being selected for national trials in the old country.

The opportunity and the possibilities are here, will we take advantage of them?

The opportunity and the possibilities are here, will we take advantage of them?

## Looks Like Interesting Season for Soccer

Judging from present indications there is a busy and exciting season ahead in soccer circles, in this district. The annual meeting of the Medicine Hat-Jedidiah Football League was held in the Hat last Monday evening. Representatives from the four teams in this league were present at the meeting and judging from accounts each gave of his respective teams it is doubtful that all are out for the season.

Redcliff has still a number of last year's players and we are assured that there has been enough new blood to arrive in town lately to make a most interesting line-up for the coming season.

A draw has already been made and the first game will be played between the Callies and Vets on May 4th. On May 6th Redcliff will play their first game against the Indians.

## Irrigation Co. Plans Extension This Year

The largest construction program yet taken for some years, involving the expenditure of half a million of money, will be undertaken this year by the Canada Land and Irrigation Co., affecting many thousands of acres of land tributary to the main ditches of the company's big seven million dollar irrigation project. This year will double the irrigated area this year.

Word was received recently from the company's offices in London, England, that satisfactory financial arrangements had been made for this construction program, and the company's officials are making arrangements for an early start on the work. The company's bond issue of a million and a half has been successful.

One of the principal features of the program for the summer will be the straightening of the main ditch around the head of the Little Bow River, south of the city, near Travers, which in itself is a big task.

Another part of the program will be the construction of the distribution system to bring water to hundreds of acres of the company's lands. Four hundred structures will be built also, in order to be ready in order to be in a position to handle a big season's work.

This company has large holdings in this immediate vicinity and they are gradually working their irrigation system in this direction.

GRAIN TRADE BOARD  
IS NOW COMPLETED

J. H. Hamlin, of Regina, is appointed to act as the third member of the proposed Dominion board of inquiry into the grain trade.

The board will comprise Judge Hyndman, Edmonton; W. D. Stables, Winnipeg; and J. H. Hamlin.

The Prince of Wales presents Boxing Shield to Jewish Lads' Brigade, Colonel Patterson receiving the medal.

## Football Match Here Next Saturday

Football fans are to be treated to what promises to be a most interesting game next Saturday afternoon when the first game of the season, with an outside team will be played. The Vets of Medicine Hat will be the visiting team and the game is called to start sharp at three o'clock.

will be an exhibition game, as the Vets have kindly consented to come up and put on a game, the proceeds of which will go to the town relief fund. It is sure to be a hand and do you bit towards swelling the proceeds.

## Favorable Progress In Military Unit

At the regular parade of the local unit last Monday evening four more young men joined up. Arrangements are being made to have Sgt. Billy Lander attend the parade next Monday evening and give instructions in boxing.

Parades are being held regularly every Monday and Wednesday, when the time is devoted to physical training and boxing. All members are advised to take advantage of this training, no as to be in shape for the outdoor work which will commence as soon as weather permits.

CHURCH NOTICES

ENGLISH CHURCH.  
Rev. C. F. Orman, rector.  
Sunday—Holy communion at 8 a. m. Matins at 11.  
Sunday school 12:15.  
Evening 7:30.  
Friday—Evening 7:30. Choir practices 8 o'clock.

Morning service at 11 o'clock; subject, "The Kingdom of God and His Own Will."

Evening service at 7 o'clock; text: "Come Now and Let Us Reason Together Faith the Lord."  
Sunday school at 2:30 p. m.  
The C. I. G. W. G. also meet in the church on Wednesday afternoon at 4:15.

## SCOUT NEWS

Because of the storm last Thursday night of the Scouts turned out. As there were so few, not much was done on anything new. Most of the time, however, was spent in ambulance and signaling.

The two drums that were ordered last Friday. They are the same as the other two. On Monday last the Scouts who are to play them met at the Scout hall after tea and had their first lesson. The drummers were allowed to take their drum home.

Mr. W. Waters has kindly offered to teach the boys how to play the drum.

Dugle practices are still being conducted after school in the Scout hall.

## S.O.E. to Celebrate St. George's Day

Officers and members of the local S. O. T. Lodge are giving a whist drive and dance in Reid's hall on Friday evening, April 22nd. What will commence promptly at nine o'clock and lasting at 10 o'clock. Good music will be provided and refreshments served at midnight. This event is being held as the lodge's St. George's day celebration. All are invited to attend. Admission \$1.25 per couple; extra ladies 50c.

## Are Preparing for Grasshopper Outbreak

In readiness for a possible reappearance of grasshoppers this year, the greater numbers than in 1920, the Provincial Department of Agriculture, through the Bureau of Agriculture, is co-operating with the Dominion Entomologist stationed in Alberta, in combating these pests.

A large supply of poison and poisoning material needed for making the poisoned bait will be as readymade at the Glendon School of Agriculture. Upon request, poison material will be shipped to any point at which there is danger of an outbreak, and will be supplied at cost.

A representative will visit any centre which has already reported likelihood of an outbreak for the purpose of discussing means of control, and will gladly be sent to any other place wishing to prepare for the "hopper" invasion with the School of Agriculture, Glendon, Alberta, for further information in this regard.

## Entertainment by the Bird Man Enjoyed

If one is to judge from the favorable expressions heard on all sides after the entertainment given by "The Avian" last Tuesday evening, we are safe in concluding that it was one of the most enjoyable events seen in Redcliff for some time.

Mr. Gort is a naturalist of a wide and varied experience. His talk on bird life proved most instructive, while his imitations of the many well-known songsters was marvellous and most entertaining. His reference to the habits of birds in saving us from famine because of their ability to keep down the many insects, grubs and worms, which otherwise would soon destroy all plant life and vegetation, should be a lesson to all to give birds the attention and protection which they deserve.

As Mr. Gort was sent to Redcliff by the Chautauque company without any remuneration to the local Chautauque committee, the latter wish to express their gratitude for this consideration. The local committee also wishes to extend their thanks to Mr. Blundell for kindly loaning his fine up-to-date Columbia during the performance and also to the general public for their patronage.

## Farewell Evening For Miss Cruikshank

The Rev. U. W. A. were hostesses at a most enjoyable social evening given in the Bowell school last evening in honor of Miss Cruikshank, the popular teacher of that school, who has resigned her position and leaves next Monday for her home in Boston.

The school was well filled for the occasion and all present expressed regrets for the occasion which brought them together. During the first part of the evening games of various kinds were indulged in and the evening program was brought to a close by a jolly dance.

After refreshments were served the speakers referred to the very pleasant services rendered to the school and district by the guest of the evening, and to the willingness with which she gave of her time and her talents to help along all movements in the interests of the district.

Miss Cruikshank will not only be missed in the Bowell and district but by Redcliff as well, as her singing has always been much enjoyed by Redcliff audiences. Her many friends here wish her every success in her new field of labor.

## L.A. to G.W.A. Have Successful Evening

An enjoyable evening was spent by those who attended the whist drive which was given by the G. W. A. in the rooms of April 13, under the auspices of the Ladies' Auxiliary. Mr. H. Everett ran the whist drive prizes which were awarded as follows:

Ladies' first, Mrs. Collier; first donated by Mrs. Oakland; H. J. Cox consolation (donated by Mrs. Cox) to Mrs. Gray and Alice Gray.

Supper was served after the whist drive, after which the Junior Orchestra supplied the music for the dance.

## Says Seed Oats Will Be 50c a Bus.

While ordinary feed oats can be bought for little or nothing these days the official department of agriculture expects that seed oats will cost around 40 cents a bushel. Hon. J. H. Macdonald, minister of agriculture, told the legislature Friday evening, stating in committee of the whole, in reply to questions by Mr. Naylor, that the various municipal districts, obtaining the government guarantee for such loans could buy the seed oats wherever they liked; most would be bought this year in their own districts. He thought that such could about 10 cents delivered at the station. The department had not bought any yet for districts outside the organized municipalities but he expected they would have to pay about 50 cents for them.

The house also put through a resolution to the whole hall providing for advances for feed to farmers in wheat areas, the measure being a bill of the one passed last year.

Mr. Macdonald thought very little of the bill, but would be required under it, however.

## PRESBYTERIANS EXTEND CALL TO

## REV. T. S. PATON

Is Unanimous Decision of Congregational Meeting Held Last Sunday Evening—Dr. Shearer To Preach Farewell Sermon Sunday, April 24th.

At the close of the evening service in the Presbyterian church last Sunday evening a congregational meeting was held for the purpose of discussing what plan should be adopted in steps to fill the vacancy caused by the retirement of Rev. Dr. Shearer from the pastorate of the congregation.

Rev. R. H. McKinnon, of Medicine Hat, who is acting as moderator, presided over the meeting. The present constitutional documents declare the congregation to decide on whom they wished inserted in the call.

On behalf of the board of managers, J. L. Stone reported on the vacancy caused by the board after careful investigation of conditions. Attention was drawn to the probability of having the vacancy filled as quickly as possible in order that the congregation of the new church might not be unnecessarily delayed. The present shortage of ministers and the financial condition of the church should also be taken into consideration in making a conclusion. It was reported that Rev. T. S. Paton, of Bassano, had indicated his willingness to come to Redcliff. As Mr. Paton had made a favorable impression when he was here a few weeks ago, it was moved by Mr. Fairbairn, seconded by Mr. Leighton, that the name of Rev. T. S. Paton be inserted in the call. A standing ovation was called for and carried unanimously.

Rev. Dr. Shearer and Messrs. W. Henderson, E. H. Sellhorn and Geo. Hunter attended a meeting of the presbytery in Medicine Hat on Wednesday morning of this week, when the outcome of this meeting was of the Presbytery and favorably considered.

Dr. Shearer will preach his farewell sermon on Sunday evening April 24, and the service will be held in the Amuse-U theatre.

## Scout Band Making Excellent Progress

A rare treat is in store for the people of town when our bugle band in connection with the Boy Scouts, make appearance on the streets in the near future. The boys, taking a great interest in their practice and are making excellent headway under the capable leadership of Messrs. W. Waters and T. Ogilvie.

The writer attended the practice yesterday afternoon and was most agreeably surprised at the progress being made. Both the instructors have been untiring in their efforts, and they have reason to feel proud of the showing now being made by the boys.

The boys, too, deserve great praise for the manner in which they have taken to their practices. Keep it up boys.

## Legal Status of Women of Alberta

The second edition of the booklet "Legal Status of Women of Alberta" has just been issued by and under the authority of the attorney-general.

In addition to bringing "The Legal Status of Women of Alberta" up to date, including amendments to former statutes and new Acts, legislation on a number of other subjects has been quoted.

Attention is especially called to the recent amendments to the Criminal Code for the better protection of women and children and also to the protection afforded to unhappy and neglected wives through some of the English laws in force in the province.

The Department of Extension has a number of copies of these booklets in stock. A small charge of twenty cents is made, merely to cover the cost of printing and postage. They may be secured by writing to the Department of Extension, University of Alberta, Edmonton, Alberta.

## OPPORTUNITY FOR SOME LAD.

It is now coming to the time of year when people are beginning to make preparations for putting in gardens, fixing up their lawns and otherwise beautifying their surroundings. As a result, those interested in such things are getting concerned about the horses, cattle and hens which have been given some latitude during the winter months.

There is a bylaw forbidding the running at large of such stock and our policeman assures us that in future this bylaw will be enforced. Those interested, therefore, would be well advised to give the matter their immediate attention to save further trouble and expense.

While discussing this matter with the local police we learned that at present there are a number of people in town who have a cow or cows, and as it is almost impossible to control their movements when they are turned out on the prairie or want lots to forage for themselves, it has been suggested that there is a good opportunity for some energetic young lad with a pony, to organize a herd. As this would mean that the cattle would be collected every morning, taken to the feeding ground and herded during the day, there is no doubt that all concerned would welcome such a movement and heartily support it.

The proposition should be well worth considering by some lad who is anxious to make a little money on the side during the summer months.

## IT'S ABOUT TIME.

The resolution passed by the Harvest Vale U. F. A., asking that the present railway commission be abolished and that a new commission be appointed, the personnel of which would be more representative, will be heartily endorsed in many quarters.

The wonder is that some such movement was not started long ago, as this commission as it exists at present appears to have forgotten the purpose for which it was brought into being.

There was a time when the railway commission rendered a valuable service to the general public, but of late it appears to have forgotten that there is a general public.

Yes, it's about time there was some move in this direction.

On account of the failure of our usual assignment of paper, to arrive this week, we are forced to issue the Review in considerably reduced size. This is owing to no fault of ours. We hope to be able to turn out in usual form next week.

At the council meeting last Monday evening the secretary informed the council that there were still a number of young men in town who had failed to pay the school tax. This is a tax which cannot be dodged and any attempt to do so only means piling up trouble and expense for the delinquent.

If we really want to lower the cost of things we all buy, we must all help to lower the cost of the things we make.

Henry Ford has been responsible to some extent for placing the horse in the background of late years. Now he is trying to put the poor old cow out of business. Henry claims he can make better milk in his laboratories, by machinery, than bovine can make in the old fashioned way. Here's hoping the machine cow doesn't kick the pail over.

## Municipal & Real Estate Finance in Canada

The pamphlet entitled "Municipal and Real Estate Finance in Canada" just issued by the Commission of Conservation touches upon some of Canada's most difficult financial problems. It is a clear and convincing statement by Mr. Thomas Adams, our planning adviser to the Commission, regarding housing, land speculation, and high taxation, resulting from municipal waste and mismanagement. No national problem in Canada is of greater importance than that which has to do with the conservation of human and financial resources in our cities and towns. This publication emphasizes the fact that until we employ sane methods in developing our community life any efforts being made to conserve our natural resources must be nullified as a result of the careless way in which the wealth derived from these resources is dissipated by bad forms of land development.

## Increment Tax on Irrigated Lands

"That the province should place a substantial tax on increment values of lands benefited by irrigation and drainage under the guarantee policy now adopted by the legislature, was fairly well agreed upon in the house last Saturday afternoon, when another

five hour session was held. Although the original bills brought down by the government for drainage districts and the Lethbridge northern irrigation project guarantee did not include corporate tax plan for taxing increased values, several members, including Premier Stewart and Hon. J. R. Boyle, were of the opinion that the province in these guarantees would be directly advancing the values of private property by placing the public burden of guarantee bonds, and therefore it was only fair to take a share in the increment when the lands were disposed of after irrigation or drainage.

## Preparing for Rush To the Oil Fields

Three northern transportation companies are now working on their summer programs and on the problem of getting people and freight from Edmonton to the oil fields. Prospects for a busy season are said to be more than good, and inquiries already coming from all parts of the continent indicate that there will be a heavy tide of travel into the north. Reports that have been sent to eastern papers to the effect that the river steamer have already been "overrun to capacity" and that incoming passengers will have difficulty in getting north, are declared by the transportation men, however, to be false. They say, in the way of moving all the men and supplies like, they are not overworked in their learning are reasonable when their

## NOTICE

In the Estate of David Broadfoot, late of Redcliff, in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named David Broadfoot, who died on the 7th day of January, A. D. 1921, are required to file with the undersigned by the 16th day of May, A. D. 1921, a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims for which notice has been so filed or which have been brought to his knowledge.

## SCANDINAVIANS IN CANADA

Nearly all authorities on Canadian immigration concur in the opinion that the very best immigrants that have come to Canada are Scandinavians. It is a very gratifying feature of the land finding its way to our shores that it still contains a substantial proportion of these peoples, which a handsome contribution of the same fine stock is annually donated by the United States. Physically a sturdy, handsome type the Scandinavians are found, almost without exception, to be clean, industrious, and progressive in every respect, making the most desirable class of citizens and being numbered among the most successful and prosperous farmers of the Dominion. Education is widespread in their native countries and they come to Canada imbued with the same high ideals of learning and culture. There is no language problem with them as they are eager to master English and to develop all the attributes of complete and successful citizenship. They employ the new tongue without embarrassment and learn rapidly. The Scandinavian race are the most readily assimilable of Canadian immigrants mixing freely and readily with the Anglo-Saxons, intermarrying, and avoiding the handicap which colony settlement gives to the progress of a foreign people. They are deeply religious, adherents of the Lutheran faith for the most part, and churches spring up wherever settlement warrants this social and political organization. The Scandinavians have already been so numerous in Canada that they have secured a permanent place in the Dominion. Several have attained the honors of the Canadian legislative bodies and are to be found occupying a place of honor in their respective communities. They are sincere and earnest students of their respective sciences and their attainments in these fields are noteworthy. In settlement are prospering at a

(1) Immigrants at Calgary.  
(2) After a Lutheran Church service at Claresholm, Alberta, gunnery and Stockholm, at Buchanan and Watons in Saskatchewan, whilst there are also many in the Duck Mountain and at Port Huron. These people and they are to be found in some of the most fertile and progressive farming communities. In British Columbia where extensive settlement has taken place the same pleasing progress is exhibited. A most gratifying feature of Scandinavian settlement in Canada is that it is almost wholly agricultural in nature and in the West they will be found in the richest and most progressive districts. Whilst retaining their national individuality, their customs, language and religion they are most truly British in sentiment and intensely patriotic as their fine contributions to Canada's army of their own worth they stand upright, without embarrassment, upon their own feet and are absorbed in the vigorous pursuit of their individual qualities. Clean-blooded, thrifty, hard-working they are of the best of Europe's contribution to a peaceful nation.

## PLAIN BUSINESS

Advertising is just plain business. In these days of keen competition no business man can neglect to advertise his wares and hope to succeed.

The buying public are looking through the newspapers to see where they can get the most for their money and if your advertisement does not appear in your home paper they are going to spend their money elsewhere.

The columns of The Review are open to you at reasonable rates and as it goes into nearly every home in Redcliff where the English language is spoken, you are neglecting your business if you do not take advantage of them.

The Review's subscription price is \$2.00 per year
